

Group # 4

Week 1	Week 2	Week 3	Week 4	Week 5	Week 6
He finds references to have guide, and share idea.	The programming has already started. He will do the html file, and help Andrew in doing the JavaScript file.	still in the process of doing our program.			
He shares ideas and find references to have guide.	We divided the tasks per member. He will do the JavaScript file, and we find more codes we didn't know how to do.	still in the process of doing our program.			
He shares idea and making a sample design of calculator.	He will do the CSS file and instruct us how to improve the design of output.	still in the process of doing our program.
